This team was calculated by adding the results from all Long Distance National Championships. These swims included postal and open water events. If a swimmer aged up during the course of the 2001 season, his or her points traveled up with them.

The postal events included:

Hour swim
3000
6000
5K
10K

The open water events included:

1-mile
1-3 mile
3-6 mile
6+ mile
2-mile cable

Points were calculated based on the following formula (in the case of ties the points were divided equally):

1st = 22
2nd = 19
3rd = 17
4th = 16
5th = 15

6th = 14
7th = 13
8th = 12
9th = 11
10th = 10

Special congratulations to Robert Beach (70-74) from St. Petersburg Masters who swam all 10 championships!!
